**Legislative Counsel’s Digest:**

Existing law sets forth an approval process for a subdivision of land that requires the subdivider of the land to submit a tentative map to the planning commission or governing body of a county or city, as applicable. (NRS 278.330) Existing law also: (1) requires the tentative map to be forwarded to certain state agencies and local governments for review, which includes, with certain exceptions, the Department of Wildlife; and (2) authorizes the Board of Wildlife Commissioners to establish reasonable fees for the review of a tentative map. (NRS 278.335, 278.337) This regulation sets forth certain procedures and requirements for the review of a tentative map by the Department.

**Sections 3 and 4** of this regulation define certain terms relating to the review of a tentative map.

Under existing law, a tentative map is not required to be forwarded to the Department if the proposed subdivision is infill development which is proposed on a vacant or substantially vacant tract of land that is surrounded by land that is already developed. (NRS 278.335) **Section 5** of this regulation sets forth the interpretation by the Department of the terms “infill development,” “substantially vacant” and “vacant” for the purposes of this exception.

**Section 6** of this regulation requires a developer to submit to the Department a tentative map, a review form and the fee required for the review of a tentative map. **Section 6** also sets forth the information that must be included on the review form submitted to the Department.

**Section 7** of this regulation provides that the Department will provide written comments on the tentative map and review form, which may include methods to avoid or minimize impacts to wildlife, mitigation measures or best management practices or design features.

**Section 8** of this regulation sets forth the fees charged by the Department for the review of a tentative map, which are, with certain exceptions: (1) \$250 for the initial review of the tentative map plus an additional \$5 for each acre shown on the tentative map that will be

disturbed during development; and (2) for any subsequent review of modifications to the tentative map, \$5 for each newly depicted acre shown on the modified tentative map that will be disturbed during development and that was not previously shown on the tentative map and reviewed by the Department.
